  - Ensure accessibility compliance and cross-browser compatibility
  - Integrate RESTful APIs and GraphQL endpoints into dynamic views
  - Participate in code reviews, sprint planning, and agile ceremonies
  - Continuously improve UI architecture and contribute to design system evolution
- 

## Required Skills

- Proficiency in **Angular, TypeScript, HTML5, and CSS3**
  - Experience with **Docker, Git**, and CI/CD pipelines
  - Familiarity with **unit testing frameworks** like Jasmine or Jest
  - Understanding of **responsive design, accessibility standards**, and **web performance optimization**
- 

## Preferred Qualifications

- Bachelor's or Master's degree in Computer Science, Engineering, or related field
  - Experience working in Agile teams and using tools like JIRA and Figma
  - Exposure to backend technologies (Node.js, REST APIs) is a plus
  - Contributions to open-source projects or personal portfolio
-

## Benefits

- Competitive salary and performance bonuses
- Flexible work hours and remote-friendly culture
- Health insurance and wellness programs
- Learning budget for certifications and conferences
